

# Hyderabad Flex User Group

## Meeting Details

### 3D in Flash Player 11.2

**Meeting Description :** Proscenium is an ActionScript 3 code library built on top of the Adobe® Flash® Platform Stage3D APIs that allows for rapid development of interactive 3D content. Stage 3D comprises a new set of low-level, GPU-accelerated 3D APIs that will enable advanced 3D experiences across screens through the Adobe Flash Platform runtimes. These new low-level APIs will provide advanced 3D and 3D engine developers the flexibility to leverage GPU hardware acceleration for significant performance gains.
